4th ANNUAL HEALTH X CHANGE

CALL FOR PRESENTERS

On May 5, 2020, MSFHR and Vancouver Foundation will host the fourth annual Health xChange asking: *How can youth-led and youth-engaged approaches help to re-define research?*

Using a PechaKucha format (20 slides, shown for 20 seconds each), presenters will share stories about how their youth-engaged* research can improve health outcomes for young people. **research led by youth or done in meaningful collaboration with youth.*

We are inviting presentations from across the full spectrum of BC health research. Topics might include, but are not limited to:

- x Creative ways of ensuring a more vibrant diversity of youth voices are heard.
- x Considering different forms of knowledge (e.g. Indigenous storytelling).
- x Youth-based participatory action research to address inequities and access to health.
- x Methods for conducting or sharing research that address power imbalances.

Do you have a story to share? Submit a short (200 word) overview or 2-3 minute video to KT@msfhr.org by February 28, 2020.

Submissions should outline:

- x What youth health issue are you addressing and why?
- x How are you centering the voices of youth?
- x What lessons are you learning or unlearning?
- x Your contact information and where we might find further information about you, your project and/or organization.
